

HP INDIGO *IN•fusion*

PRODUCT FEATURES

IN•fusion is SMART Papers' technology for HP Indigo papers utilizing a non-sapphire technique.

This technology has been engineered to allow for optimum toner adhesion on all of the HP Indigo presses, whether it be sheet-fed or web-fed. *IN•fusion* can be offset, direct imaged or laser pre-printed and will still guarantee superb HP Indigo toner adhesion. Plus, our products are priced competitively across our cast coated, matte coated and uncoated product lines. And, with our *IN•fusion*, there is no shelf life, so our papers will last forever.

If you liked SMART Digital treated products, you will love the SMART Digital *IN•fusion* products.

- Any color, weight, or finish is available on a custom basis – consult your SMART Papers merchant or sales representative.
- All products have been certified by RIT.

Stock - No minimum order quantity – order as little as one carton!
