

HP INDIGO (Treated Papers)

PRODUCT FEATURES

HP Indigo's proprietary inks and technology provide the ability to print up to six colors – four process and two custom colors. This extended color range offers endless color combinations and true-to-life color reproduction with unparalleled ink vibrancy. The company's proprietary ink, ElectroInk, permits true liquid-ink-based printing and is electro statically charged to produce high-resolution and high-quality color images. HP Indigo manufactures both roll- and sheet-fed presses that handle variable data with ease. The equipment also makes it possible to print as little as one copy of the actual job for proofing before finishing the print run.

- Carnival, Pegasus, Kromekote, and Knightkote Matte are treated on both sides for consistent performance.
- Kromekote is available in up to a 12pt. caliper for those jobs where weight and stiffness are critical.
- Kromekote is offered in both short and long grain for maximum flexibility.
- Knightkote Matte, (92 brightness), is fully coated on both sides and marries the clean, vivid print characteristics of a coated paper with the natural look of an uncoated paper.
- Carnival Stellar White and Pegasus Brilliant White are 98 bright white for maximum contrast.
- Genesis 100PCW white is made from 100% Post-Consumer Fiber and is FSC - Certified
- Any color, weight, or finish is available on a custom basis – consult your SMART Papers merchant or sales representative.

Stock - No minimum order quantity – order as little as one carton!

Carnival, Pegasus, Genesis, Knightkote and Kromekote are manufactured for archival value in an acid-free process in compliance with American National Standards Institute, Inc. standards set for alkaline papers.

HP Indigo sapphire treated papers have a shelf life. If not stored properly, heat and humidity will have a negative impact on sapphire treatment. SMART Papers recommends our papers be stored at 70 degrees F and 40-45% humidity. Recommended product acclimation is 48 hours. Product must be sold and printed within the following timeframe for guaranteed toner adhesion.

Kromekote – 12 months

Carnival – 6 months

Pegasus – 6 months

Consult the **Guaranteed Through** sticker on the carton for expiration.
